-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. This action is responsive to communication: application, filed on 01/08/2002.

#### ***Election/Restrictions***

2. In an interview 4/322/04, Applicant's Attorney Bruce Clay election, without traverse, claims 1-17 and 23 is acknowledged. Claims 7-11, 18-22 and 24 are withdrawn from consideration.

#### ***Allowable Subject Matter***

3. Claims 4-6 and 15-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach and/or suggest "receiving data from a server application; determining whether the data is serializable . . . storing the data in a data structure . . . if the data is not serializable . . .", combined with "receiving argument data from a client . . . retrieving the complex object from the data structure if the argument data is a reference to a complex object."

#### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2172

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-3, 12-14 and 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Lister et al., US# 2002/0178297 A1.

As per claim 1, Lister et al. teaches “receiving data from a server application” (see page 6, paragraphs [0049]-[0051]) “determining whether the data is serializable” (see page 4, paragraphs [0030] and [0032]) “storing the data in a data structure and forwarding, to a client, a reference to the data structure if the data is not serializable” (see page 4, paragraphs [0030] and [0036]).

As per claims 2-3, Lister et al. teaches “a hash table . . . key . . .” (see page 4, paragraph [0036]).

As per claims 12-14, these claims are rejected on grounds corresponding to the arguments given above for rejected claims 1-3 and are similarly rejected.

**Conclusion**

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US# 2003/0172020 A1.
